

Dark Eyes

This week's Kernel Sweetheart is Linda Farmer, a freshman dance-education major from Bolt, W. Va.

Outstanding Greek Candidates Named

Each year during Greek Week, which will be held March 5-9 this year, an outstanding Greek man and woman are chosen. Each fraternity and sorority nominates a candidate on the basis of scholarship, achievements, leadership, contributions to the campus and to the fraternity system.

A committee composed of a representative from each group then selects the man and woman. From these two nominees, a final committee selects the final pair.

The winners will be announced March 7.

Candidates who have been nominated by each fraternity and sorority are: Tau White, Alpha Delta Pi; Delta Mu Delta; Alpha Gamma Delta; Gretchen Myers, Alpha Xi Delta; Carolyn Reid, Chi Omega; Ann Evans, Kappa Shropshire; Bell, Delta Delta Delta; Martha Kandler, Delta Gamma; Pat Reese, Delta Zeta; Jeanne Haines, Kappa Alpha Theta; Janet Lloyd, Brenda Book, Kappa Delta; Tappie Carbin, Kappa Kappa Gamma; Vanda Marcum, Pi Beta Phi; and

Linda Lawrence, Zeta Phi Alpha.

John Peter, Alpha Gamma Delta; Peter Campbell, Delta Tau Delta; Gene Burt, Gamma House; John Corner, Kappa Sigma; Pat Ryan, Lambda Chi Alpha; Dave Graham, Jack Davis, Phi Delta Theta; Dave McClellan, Tony Newmark, Phi Gamma Delta; Larry Westfield, Johnny Williams, Phi Kappa Tau; Jim Thomas, Sigma Alpha Epsilon; Don Caron, Sigma Chi; Steve Mallos, Sigma Nu; Bill Cooper, Sigma Phi Epsilon; Boyd Hurst, Triangles; and Dennis Mael, Zeta Beta Tau.

Placement Interviews

The University Placement Service will conduct interviews Monday with the following organizations: Los Angeles Division of North American Aviation, Hallmark Cards, The McAlpin Company, Union Central Life Insurance Company, U. S. Coast and Geodetic Survey, and Whirlpool Corporation.

Interviews will be held on Tuesday for the Louisville Cement Company, Marathon Oil Company, Nuclear Metals Division of National Lead Company of Ohio, John Shillito Company, Ashland Oil and Refining Company, and General Electric.

Consult the Placement Service for further information.

77 Students Attain Four Point Average

UK's Enrollment Largest Ever

The University's largest spring enrollment in several years is due to fewer students dropping out at the end of the first semester reported Dr. Charles F. Elton, Dean of Admissions and Registrar.

The campus enrollment has increased 721 students. This is 435 more students than were added in the 1962 spring term. The total University enrollment now, including the five centers, is 10,423 as opposed to 11,321 last semester.

The University lost 234 students primarily from extension classes. The total loss of students was only eight percent of the fall enrollment the usual decrease is from 12 to 15 percent, said Dr. Elton.

There are now 7,937 students on the campus, 443 in organized extension classes, and 436 in evening classes. The Ashland and Ft. Knox centers have increased enrollments and the Covington, Henderson and Cumberland centers have decreased enrollments. Ashland now has 347 students, Ft. Knox 491, Covington 450, Henderson 170, and Cumberland 154.

The 10,423 enrollment figure includes students taking organized courses for credit only, not students taking correspondence or non-credit courses. Dr. Elton said approximately 14,000 students in all were receiving college instruction from the University.

Seventy-seven University students compiled a 4.0 standing for the fall semester as announced yesterday by the deans of their respective colleges.

The breakdown according to colleges and classes is: Arts and Sciences 12 seniors, 7 juniors, 5 sophomores, 2 freshmen, and 1 special student; Commerce: 1 senior, 1 junior, and 1 sophomore; Education: 40 seniors, 1 junior, 4 sophomores, and 1 special student; Nursing: 1 junior, Pharmacy: 1 senior.

Those with a 4.0 standing in Arts and Sciences are Anne Spencer Arnold, Lexington; Virginia Rapp Barrett, Lexington; Joyce A. Wilson Carey, Lexington; Nancy Louise Coleman, Lexington; Bradley Burton Cox, Lancaster; and Sharon Elaine Craft, Neon.

Anne Gordon Evans, Lexington; Hazel Mary Evans, Henderson; Glenn Campbell Graber, Ashland; Eric Beard Henson, Lexington; Anna Laura Hood, Louisville; Sandra Jean Howard, Lexington; Lambert Noel King, Muncie, Ind.; Lucy E. Krippenstapel, Covington; Merle Eugene Mullins, Richmond; and Betty Jane Mitchell, Campbellsville.

Dudley Lanier Milward, Lexington; Delores Ann Porter, Clintwood, Va.; Ted Alan Ramsey, Somerset; Gerald Elliot Raybeck, Confluence, Penn.; Eugene Thomas Reed, Jr., Jeffersontown; Shelby Don Rose, Manchester; Henri L. Snodgrass, Alva; Glynda Sue Stephen, Williamsburg; and Robert Allen Stock, Ravenna.

Graduate: Martin Weakly, Lewis; William Sue Kay Miller, Morehead; Judith L. Jones, Lexington.

Faculty: Judith Beuth, Louisville; F. B. Bawling, Charlotte, W. Va.; Mary Farris Fowler, Lexington; Martha Lee Coffey, Lexington; Ruby Walcott, C. P. O.; Marion B.

Committee Of 60 Tells State Need

A consensus that the state of Kentucky needs a blueprint for higher education evolved from the Committee of 60 meeting yesterday.

"A broad study, coordinated with the other state and private institutions, should be undertaken soon," suggested University President Frank G. Dickey.

The meeting, which was held at the Cardinal Hotel, centered around the role of public relations in a university.

Committee members felt the role of the University was dependent on the overall picture of higher education within the state.

President Dickey opened the meeting by summarizing the function and programming of the University's Public Relations Department and its role in communicating with the public.

Only 18 members of the Committee were present at the session which opened at 9:30 a.m.

and concluded at 2:30 p.m. Adverse weather conditions throughout the state caused the 11:30 a.m. session. The Committee reported last year, 1962, a number of the Board of Trustees, a faculty committee of 15, and other prominent Kentuckians.

Centre president Dr. Thomas Spurgeon pointed out that educational institutions must first decide that which it is trying to communicate to the public. "Educational institutions must sell the lecture and the people of Kentucky with the need of greater financial support," he later said.

One committee member stated the post-war baby-boom would be hitting the nation's colleges and institutions within the next two

(Continued on Page 2)

Dickey Lectures Teachers Who Try To Fail Students

"The appalling abandonment of educational ideals among college professors bears our close scrutiny," said Dr. Frank Dickey at a dinner Wednesday night for the faculty of Eastern Kentucky State College.

In his "lay-it-on-the-line" talk, Dr. Dickey said that college instruction can and must be improved, but that first college teachers must look closely at the goals of teaching.

In examining the goals of education it would be best to put aside the old argument which still rages around the conflict between educating for liberal or practical values, Dr. Dickey said.

"There is definitely the possibility that we have too blindly

accepted the virtue known as academic excellence," Dr. Dickey said. Teachers, in their eagerness to identify the brighter students, have turned to "rigid national tests created by corps of social scientists and statisticians" which "relieve them of considering each student as an individual."

"Our institutions are staffed by an inordinate number of faculty members who want to bask in the reflected glory of 'A' students" and, stated Dr. Dickey, he is "deeply concerned with the professor who remarks that he can hold the percentage of successful students in his classes to a bare minimum."

Such an idea, according to Dr. Dickey, does not necessarily

mean that the teacher has set effective standards. It more likely means that the teacher has "dedicated all his efforts to failing and very little or none to teaching."

In conclusion, Dickey said, "the agent of growth is the teacher himself. . . his resolution must be strong enough to enable him at times to compensate for shortage of time, energy, or resources, or even for indifferent support by institutional superiors."

Dr. Dickey's speech concluded a "Progress at Eastern Day," which included a talk by Gov. Bert Combs, a Board of Regents meeting and a review of the college's building program.

Freshman Is Best Speaker

William Clark, a freshman Arts and Sciences student, won the second annual Patterson Literary Society extemporaneous speech contest Wednesday night.

His speech was the "Spirit of America," a description of the differences between democratic and totalitarian governments.

Second place was won by George Gerhardt, an engineering sophomore. He spoke on "Ethics," discussing what makes right or wrong. John Jordan, a junior in commerce, was third place winner with his speech, "You Are The Witness." He described what a person could expect to face if called on to appear in court as a witness.

The three winners were presented trophies by Alvin Pelk, president of the Patterson Society. The trophies were furnished by Kennedy Book Store.

Other contestants were Gerry Foster, Daniel Barr, and Cris Gorman and all were enrolled in English 181 during the fall semester. They were requested to speak in the contest by their instructors.

Judges were Jerry Anderson and Daniel Yates, both law students, and William Pardum, assistant principal of Henry Clay High School.

BAYNARD'S . . . SHOES OF DISTINCTION

"A Big Frog In A Big Muddle"

University Soapbox

Coeds Are Not The Only Guilty Party

To The Editor,

The editorial "Once Upon A Time" (*Kernel*, Feb. 19) struck a very responsive note and prompts several comments. First of all, in fairness to the coeds it should be noted that they are not the only ones guilty of losing their perspective and/or of marring the buildings and "gifts of nature" on campus. In addition to queen posters there are announcements of meetings (some are even of *academic* or *scholastic* honoraries), rallies, dances and, currently, posters urging votes for the various candidates for King of the Goldiggers' Ball.

I have no quarrel with the presence of social groups, dances, rallies, etc., although I agree with the *Kernel* that these are often (usually) trans-valued. I even recognize the value of posters announcing the time and place of such events—indeed this is why the various bulletin boards have been erected at certain strategic points on campus. (My sympathy goes to Links on their recent experience, and because of the salt that was rubbed into the wound by desecrating a bulletin board intended for announcements pertaining to honor, scholastic, and departmental group functions with three King posters.) However, I feel that the placement of posters should be confined to these *appropriate* locations. But, even when this is done, there are two other common practices that are followed. Both of these are even more appalling to me than the mere indiscriminate plastering of the campus with posters, and they have prompted me to mount my soapbox.

It is indeed bad enough to be faced with the command of "... Vote for Debbie, Catherine, Ann or Carol,

... which demands "... the student's attention from whichever direction he may turn," but it is still worse to face these same commands for weeks, even months, after the campaign is over. Here again the coeds are not the only guilty ones—posters for pep rallies, meetings, and even the Concert and Lecture Series hardly ever seem to die and be given their due burial—they just slowly and lingeringly mold away on the bulletin boards, buildings, and trees.

Still worse than leaving an outdated and hence useless poster up is the practice of ignoring the priority rights of existing posters announcing *future* events. The principle of "first come—first served" has been replaced by "last come—first on top." If someone comes tomorrow with a new poster it goes on top of those already there with no regard for the respective dates of the events announced in each poster. There is no thought of either moving the posters in such a way as to accommodate *all* of them or of putting up the new poster later or in another spot, but only thoughts of making "mine" the most conspicuous.

I am associated with the University Testing Service in the capacity of administrator of such tests as the Graduate Record Examination, Law School Admissions Test, etc., and on Saturday, Feb. 23, at 8:30 a.m. in Room MN 263 of the University Medical Center will be giving a special on-campus Placement Test for the Peace Corps under the auspices of the Testing Service. This test is intended for students applying for Peace Corps projects which begin after graduation, and the test results are one of many

factors taken into consideration in the selection of applicants. We have been announcing the test through the proper and usual news media and also by means of posters—posters placed only on the aforementioned bulletin boards, and posters which will come down on Saturday after they have served their purpose. These posters were placed in empty spaces on the bulletin boards Sunday, Feb. 17, but by Tuesday, Feb. 19, one of them was gone (it is barely possible the wind

did it and *not* some person acting with intent). Another moved and ticked back up so inadequately that it cannot be read, to make room for a "king poster." The wind did NOT do that, nor did it place still two other king posters on top of the Peace Corps Placement Test announce-

ments in such a way that most of the vital information is obscured. I said the wind is not responsible, perhaps the candidate himself is not directly responsible either. However, it would seem he is responsible for the activities of his campaign manager—call him whatever euphemistic name you will he is still a campaign manager—and for seeing that a little common sense and decency and courtesy is followed in advertising. The names involved are not important (indeed to specify them would only give the candidates undeserved publicity) but the principles are.

I am dismayed by the lack of fairplay and the nonobservance of priority thus displayed. The Peace Corps incident is not an isolated one, but seldom has such a total lack of perspective been manifest. The fact that the Peace Corps is an official Federal agency is not involved—what is involved is the goals and purposes of the Peace Corps for winning friends abroad for this country and serving humanity on an *ongoing* basis, as compared to the dubious distinction of being a titular king of an inconsequential campus dance lasting a few hours.

Perhaps the solution is to build more bulletin boards. Since relocating the students in the proper use of the already existing ones would appear futile in view of past experience, I have come to the regrettable conclusion that the only internal solution is some kind of policing agency to see that posters are confined to proper locations and that priority rights and expiration dates are observed.

The Key To NATO

No matter how distasteful it may be, the leaders of the Western World must be prepared to placate General De Gaulle by accepting some of his ideas and making concessions to some of his demands. He holds the key to the success or failure of NATO—the Free World's greatest deterrent to Communist aggression.

Even a cursory study of the map of Western Europe shows that NATO forces deployed in West Germany and the Low Countries are dependent upon lines of communication and supply extending westward through France. Military bases and port facilities essential to the maintenance of these lifelines of NATO can exist only through the sufferance of a friendly, cooperating French government. Should General De Gaulle choose to do so, he could completely cripple NATO by denying it the privilege of stationing forces in France.

History shows that General De

Gaulle always has been a formidable enemy of the Communists; however, history also shows that he has been just as formidable and treacherous in his efforts to build a strong France free of dependence upon other countries of the Western World and particularly the United States. There is no way of knowing whether or not his obsession for a strong France could override his willingness to continue as a key member of NATO.

A solution to the enigma of De Gaulle can be found by other leaders of the Western World only through application of the very best in statesmanship and diplomacy.

The whole art of government consists in the art of being honest.—Thomas Jefferson.

THEATER SCHEDULE

The following is a schedule of plays appearing in local theaters this weekend.

ASHLAND: "Man in the Grey Flannel Suit," 4:03 and 8:48 p.m., and "Sabrina," 6:55 p.m., Friday and Saturday; "Sampson and the Seven Miracles," 2:45 and 8:29 p.m., and "Guns of Dartmouth," 5:22 p.m., Sunday and Monday.

BEN ALI: "Son of Flubber," 5:39, 7:22, and 9:25 p.m., Friday; 5:34, 7:52, 9:50 p.m., Saturday; and 5:15, 7:16, and 9:17 p.m., Sunday.

CIRCLE 25: "Operation Snatch" and "Adventures of a Young Man," Friday and Saturday; "Paris Holiday" and "I Want to Live," Sunday through Tuesday.

FAMILY: "Elmer Gantry" and "The Unforgiven," Friday through Sunday.

KENTUCKY: "Term of Trial," 4:52, 7:12, and 9:32 p.m., Friday and Saturday; 5:10, 7:21, and 9:32 p.m., Sunday.

STRANGLER: "The W. C. Sullivan Show," 7:15 and 9:15 p.m., Friday and Saturday; 7:15 and 9:40 p.m., Sunday.

Religious Emphasis Scheduled Monday

The second phase of a three-phase period of religious emphasis during the spring semester will begin Feb. 28 with a speech by the Rev. William Black of the Church of the Good Shepherd, Athens, Ohio.

The purpose of the program is to share in a discussion of modern faith and values. The sponsors are the Interfaith Council, the religious foundations, the religious advisors staff, and the office of religious coordination.

Rev. Black will speak at a 10 a.m. assembly of mechanical engineering students. Contemporary faith and student values will be discussed by the Rev.

SABIN VACCINE OFFERED AGAIN

Type 1 of the Sabin oral polio vaccine will be administered to college students again in the lobby of the Medical Center Sunday from 12 to 5 p.m.

Approximately 1,800 students took the vaccine on Feb. 17," said Dr. Hugh S. Fulmer, coordinator of the student immunization drive. This means a large segment of the student body did not avail themselves of the opportunity to become immune to polio.

"The students who took the vaccine were not inconvenienced," said Dr. Fulmer, "it only takes a few minutes." He urged students not fully immunized to polio to take advantage of this second "Sabin Oral Sunday."

The vaccine is taken by eating a sugar cube which contains the serum. Dr. Glen U. Dorroh, president of the Fayette County Medical Society, has explained that the immunization is permanent.

The immunization drive is being held throughout Fayette County. Type 11 of the Sabin vaccine will be given on March 17 and 21. The entire immunization is free, but a donation of 25 cents is suggested.

Can you meet the challenge of a COMPANY ON THE MOVE

What kind of career are you looking for? One with a sound, stable organization where you'll want to put your roots down? Or one with a dynamically growing company that offers excitement and stimulation?

Marathon could be both—if you can meet the challenge of a company on the move.

Marathon markets petroleum products in 17 states, operates 4,000 miles of pipelines and four refineries (two more under construction—in Spain and West Germany), produces in 21 states, Libya and Canada, and explores on five continents.

In little more than three years, our refining capacity has tripled, crude oil reserves have increased by more than half, and our marketing area has more than doubled.

This makes Marathon one of the fastest growing companies in the oil industry. Yet behind the rapid growth lies 75 years of solid experience.

Across Marathon's spectrum of exploration, production, refining, transportation, marketing and research are growth opportunities in practically every professional field—for those who qualify and can meet the challenge.

Present openings in accounting, sales and procedures research (computers) can lead to positions of greater responsibility in many areas. On-the-job training is combined with a tuition-aid program.

See Marathon's representative on campus or direct inquiries to Mr. Tom S. Thompson, Supervisor of Recruitment and Placement, Marathon Oil Company, Findlay, Ohio.

Next interviews on campus:
Tuesday, February 26

MARATHON OIL COMPANY

Intercollegiate Bridge

There will be an intercollegiate bridge tournament in the Social Room of the Student Union Building this Sunday at 1:30. The entry fee is \$1 a couple. Students may sign up for the tournament in the Program Director's Office at the SUB. First place winners will be eligible to go on to national competition.

Your Dream Come True
Now You Can

Kappa Alpha Rebounds To Score 9th Victory

By RICH STEVENSON
Kernel Daily Sports Editor

Kappa Alpha overcame an early Phi Sigma Kappa lead and raced to a 34-28 win in Wednesday night's Intramural tournament action. The win was the KA's ninth of the season against no losses.

In other play Wednesday, Alpha Gamma Rho downed Lambda Chi Alpha, 41-39, and Sigma Alpha Epsilon edged Pi Kappa Alpha, 34-33, in fraternity play.

Newman Club beat Canterbury Fellowship, 20-17, and the Cliff Dwellers topped the 3 B's, 27-26, in independent action.

Only 13 points separated the five winning squads from the loser. Wednesday night in the first full card of tournament action.

Kappa Alpha, down 21-16 at half, outscored Phi Sig 18-7 in the second half to post the hard-fought win.

Harry Lee Waterfield paced the comeback with nine points in the second half. He was the KA's leading scorer with 13 points. Close behind was guard and playmaker John Talbott with 12. Talbott scored 10 of these in the first half. Charlie Franks scored his only four points, on free throws, late in the game to ice the KA win.

Ted Bullock of Phi Sig tied Waterfield for game honors with 13. Ron Kashluck was the only other player in double figures with 11.

The best scoring performance of the night was put on by Alpha Gamma Rho's Tommy Goebel who fired in 20 points to lead the AGR's to victory. David Sparrow was number two man scoring-wise for AGR with seven.

Bill Oder paced the LXA losing cause with 12 points.

AGR had to come from behind to defeat Lambda Chi. After erasing a two point deficit, Alpha Gamma Rho built up an eight point lead, then held on to win by the two point margin.

SAE also had to come from behind to edge PiKA in the evening's first contest. The Pikes led most of the game until SAE pulled ahead just before the final whistle.

Phil Hutchinson paced SAE with 12 points. Lee Owen scored eight and Bill Pieratt five for SAE.

Don Skeeters of PiKA tied for scoring honors with 12. Kent Marcum tabbed eight and Milt Skeeters added five to the Pike total.

Sigma Alpha Epsilon's record now stands at 6-1. They meet the winner of the Phi Delta Theta-Delta Tau Delta game in semi-final action next Wednesday night.

Alpha Gamma Rho, 7-0, and KA, 9-0, also clash in semi-final action next Wednesday night in Alumni Gym.

Independent action featured a pair of low-scoring, but action-packed games.

John Inman tabbed eight and Bill Martin added six to lead the Cliff Dwellers to a 27-26 shading of the 3 B's. Andrew Wintrey with eight and Fred Osborne with seven led the 3 B's in a losing cause.

KA Rebounds To Win

Kappa Alpha forward Harry Lee Waterfield battles with Phi Sigma Kappa's Don Chastine (34) for a rebound in Wednesday night's Intramural tournament action. KA's Dave Parrish watches from the side while Phi Sig's Rich Roderer (22) can be seen in the background.

Cats Rule SEC With Iron Hand

Kentucky's SEC record shows perhaps the greatest supremacy ever enjoyed by any team in any sport.

In pre of the season this year, the Cats have posted 335 wins against only 48 losses in conference play. Mississippi has never beaten the Cats in 24 meetings. Georgia, Florida, and LSU each hold only one victory over Kentucky in conference play since 1933.

The Wildcats' winning percentage is nearly 90 percent.

Kentucky has annexed 23 league championships and own over 60 team and individual records from regular season and tournament play.

Only Tennessee (1936, 1941, 1943-45) and Georgia Tech (1955, 1963) can boast of beating the Wildcats two in a row.

The Kentucky record against the individual members is as follows:

	UK Won	Lost
Alabama	28	6
Auburn	14	2
Florida	17	1
Georgia	26	1
Georgia Tech	42	9
LSU	21	1
Mississippi	24	0
Miss. St.	14	4
Tennessee	55	13
Tulane	27	4
Vanderbilt	39	7
Sewanee	6	0

Source: Archives from the SEC following the 1962 season

Newman Club was paced by Demski's 10 points in the 20-17 victory over Canterbury Fellowship. CF scoring was divided between three players. Konrad and Peene each scored six and Anderson added the other five points to the Canterbury Fellowship totals.

Kentucky Hosts Volleyball Meet In Alumni Gym

The University will host the first volleyball tournament of the year Saturday at the Alumni Gym. The five-team event will start at 11 a.m.

All five teams are members of the Midwest Intercollegiate Volleyball Conference, one of the nation's few volleyball conferences.

The meet will feature three of the nation's top five squads. Georgia Williams of Chicago is ranked second, Ball State is third, and UK is fourth.

Coach Don Sebolt said the team will be a formidable unit. The four teams with the most victories will meet in the elimination play to determine the champion.

"Volleyball will be an Olympic sport for the first time in the Tokyo Olympic. There is a new push in the United States," Sebolt said, "especially at the younger level."

"We are encouraging the students taking our service courses to attend the tournament. Admission will be free."

Kentucky has four starters back from last year's squad. UK's first, which went to the national finals. Only Coach Sebolt, a player last year, and Jay Bayless, an All-America selection, are missing from the team.

Captain Kirk Muse, Bob St.

Chair, Robert Taliterro, and Dave Harrison return from last year to starting positions. Mike Candy and Dave Ravenraft will fill the other two starting posts.

Coach Sebolt said the final round-robin round will start about 2:45. This would make the championship begin at 4 p.m.

The complete round-robin schedule:

11:00	Ball State-Ohio St.
	Earlham-Georgia Tech
12:00	Ball State-Georgia Tech
	Earlham-Ohio St.
1:00	Ball State-Georgia Tech
	Earlham-Ohio St.
2:00	Ohio St.-Georgia Williams
	Ball State-UK
2:45	Ball State-Georgia Williams
	UK-Ohio St.

Cats Fight To Keep From Becoming Rupp's Worst

UK Faces Auburn, Bama This Weekend

Kentucky hosts SEC leading Auburn Saturday and Alabama Monday in the last Coliseum dishes of a dismal Wildcat year. Both contests begin at 5 p.m.

Couch Adolph Rupp's "record setters in reverse" will be fighting to keep from becoming his worst squad. Already saddled with eight defeats, the '62-'63 Cats could well become the first Rupp-coached team to lose nine regular season games.

The '60-'61 squad lost nine games, but one of these was to Ohio State in the NCAA Regional finals.

The five defeats suffered at home this season is a new record. This weekend could see the figure raised to seven. Auburn currently leads the conference with a 9-2 record. The Plainsmen are sporting a 17-2 overall mark.

HAYDEN RILEY
Bama Coach

Alabama has a 14-8 overall record and is tied with Kentucky in league standings, both with 6-5 fourth place slates.

"I can't even begin to explain their showing," Rupp says.

The Kentucky record could easily be 21-1 at this time, instead of the dismal 14-8. Seven of the eight losses have been by a total of only 25 points. Only St. Louis clobbered the Cats, beating Kentucky 87-63.

Kentucky could well have won these seven close games. "All it would have taken would have been a little intestinal fortitude, more desire to win than the other guys, a few more free throws,

another basket or two, or a little better defense."

Couch Rupp also lost to Auburn Monday, 61-57. Vandy, which UK lost 69-57, the only player just will not follow instructions.

"We varied time out with 55 seconds left and told them to go and meet every pass and to work it in for a close shot," Rupp said. The Cats lost the ball. "Then we told them not to foul, Baesler did." Vandy guard Roger Schuring hit both free throws to give Vanderbilt the upset win.

Saturday night the Cats will be facing the nation's best rebounding team in the Plainsmen. Auburn has shared 60 percent of the rebounds in compiling its 17-2 record.

Auburn also is the conference's best defense squad, limiting opponents to only 58 points per game.

All-SEC center Layton Johns leads the deep-South shuttlers. Johns is joined in the starting lineup by a pair of holdover guards, Larry Chapman and Billy Tinker.

Auburn was third in the conference, behind the Cats and Mississippi State, last year. Kentucky had to fight down to the wire to down Auburn, 63-60, last year.

Bama coach Hayden Riley's Crimson Tide has been the dark-

horse team of the conference this year. Bama took a 17-11 overtime verdict from Mississippi State early in the conference fight. Not expected to improve much on last year's 11-15 record, the Alabama crew has been the season's surprise squad.

Couch Rupp has

lost to Auburn, 61-

Vandy, which UK

lost 69-57, the

only player just

will not follow

instructions.

Guard Terry Mobley, who play-

ed briefly against Vandy, and

in folks can be expected to

play in the weekend battles.

Kentucky's only remaining

game is a week from Sat-

urday against the Tennessee Vols

If space
is your future,
your career
is with Hughes

IN ASTROSPACE
IN AEROSPACE
IN TERRASPACE
IN HYDROSPACE

As far back as 1890, Jules Verne visualized excursion trains to the moon. Today — 73 years later — Hughes offers you the opportunity to play an important part in man's actual conquest of space.

Help us soft-land the SURVEYOR on the moon — or work with us on exciting advanced projects such as:
TFX—Guided Missile System
MMRDM—Mobile Mid-Range Ballistic Missile (Integration, Assembly & Checkout)
SYNCOM—Communications satellite
BAMBI
ARFAT
ANTI-MISSILE DEFENSE
PLASMA PHYSICS & ION PROPULSION
ADVANCED FIXED-ARRAY RADAR SYSTEMS
LASER & LASER RESEARCH & DEVELOPMENT
NUCLEONICS & MORET* SYSTEMS
SOLID STATE MATERIALS & DEVICES
DATA PROCESSING & COMMAND CONTROL

B.S., M.S. and Ph.D. Candidates

will conduct
**CAMPUS
INTERVIEWS**

March 8, 1963

Find out more about the wide range of activities, educational programs and relocation allowances offered by Hughes. For interview appointment or informational literature consult your College Placement Director. Or write: College Placement Office, Hughes, P.O. Box 99515, Los Angeles 9, Calif.

FALCON IS "NEW KING OF THE MOUNTAINS" * IN TOUGHEST 2,500-MILE MONTE CARLO RALLYE

Special edition Falcon V-8 "Sprint" defeats the world's best in final 490-mile test section on icy Alpine cliff roads... then outperforms every sedan on famous Monaco circuit!

Falcon picked the world's roughest winter road to reveal an astonishing new brand of total performance. Four days and three nights through an inferno of ice, snow, freezing fog, endless curves—2,500 miles against an implacable time schedule, designed to try a car's reliability, road holding and performance to the ultimate. Experts said a first time car couldn't hope to finish, and two thirds of the 296 competitors did drop out, but Falcon not only placed first and second in its class, it defeated every car, regardless of class, on the brutal Chambery-Monte Carlo final leg, set best time among all finishers in all of the six special test sections—and showed its heels to every sedan in the dramatic three-lap elimination on Monaco's famous round the houses course. You couldn't get better proof of total performance anywhere!

*You can read the dramatic report of the world's most rugged winter Rallye in Sports Illustrated's February 4 issue. And you can get the full story of this and Ford's other total performance accomplishments from your Ford Dealer.

DEEP SNOW on the Col de la Chapelle special test section even saw the Sprint. And since Ford's Falcon out-aminized the King, reports by its baritone no longer are

STORMING ALONG IN THE FRENCH DUSK, a Falcon plunges into the third night behind the special lights that let a Rallye driver see around curves, spot patches of ice, penetrate fog.

FALCONS TOOK CURVES LIKE THESE—there are a few hundreds of them—and proved that road-holding is the key to total performance. In fact, Sports Illustrated magazine called the new king "the most exciting" and quoted a London newspaper as declaring, "The Falcon is part of a power and performance plan that will shake up motoring in every corner of the world."

"LACETS" is French for zigzags like these. It means "curves," but to Rallye drivers it means an ultimate test of steering, stability, brakes and, above all, durability.

BEST OF ALL "TOURING" CATEGORY CARS in the three-lap Monaco circuit was the Falcon pilot, Swedish ice expert Jo Ljungstedt. It was surpassed by only three cars, all of them two-seater sports cars in the Grand Tour of Hungary.

America's liveliest,
most care-free cars!
